The diagram illustrates the experimental design. A horizontal transect of 500 m is shown, divided into 10 segments of 50 m each. The first segment (0-50 m) contains a 1-ha plot (100 m x 100 m) and a 1,000 m² plot (10 m x 10 m). The remaining 9 segments (50-500 m) are marked with black and white squares, indicating the locations of the 90 other 1,000 m² plots. The 1-ha plot is labeled '1 ha' and the 1,000 m² plot is labeled '1,000 m²'.
